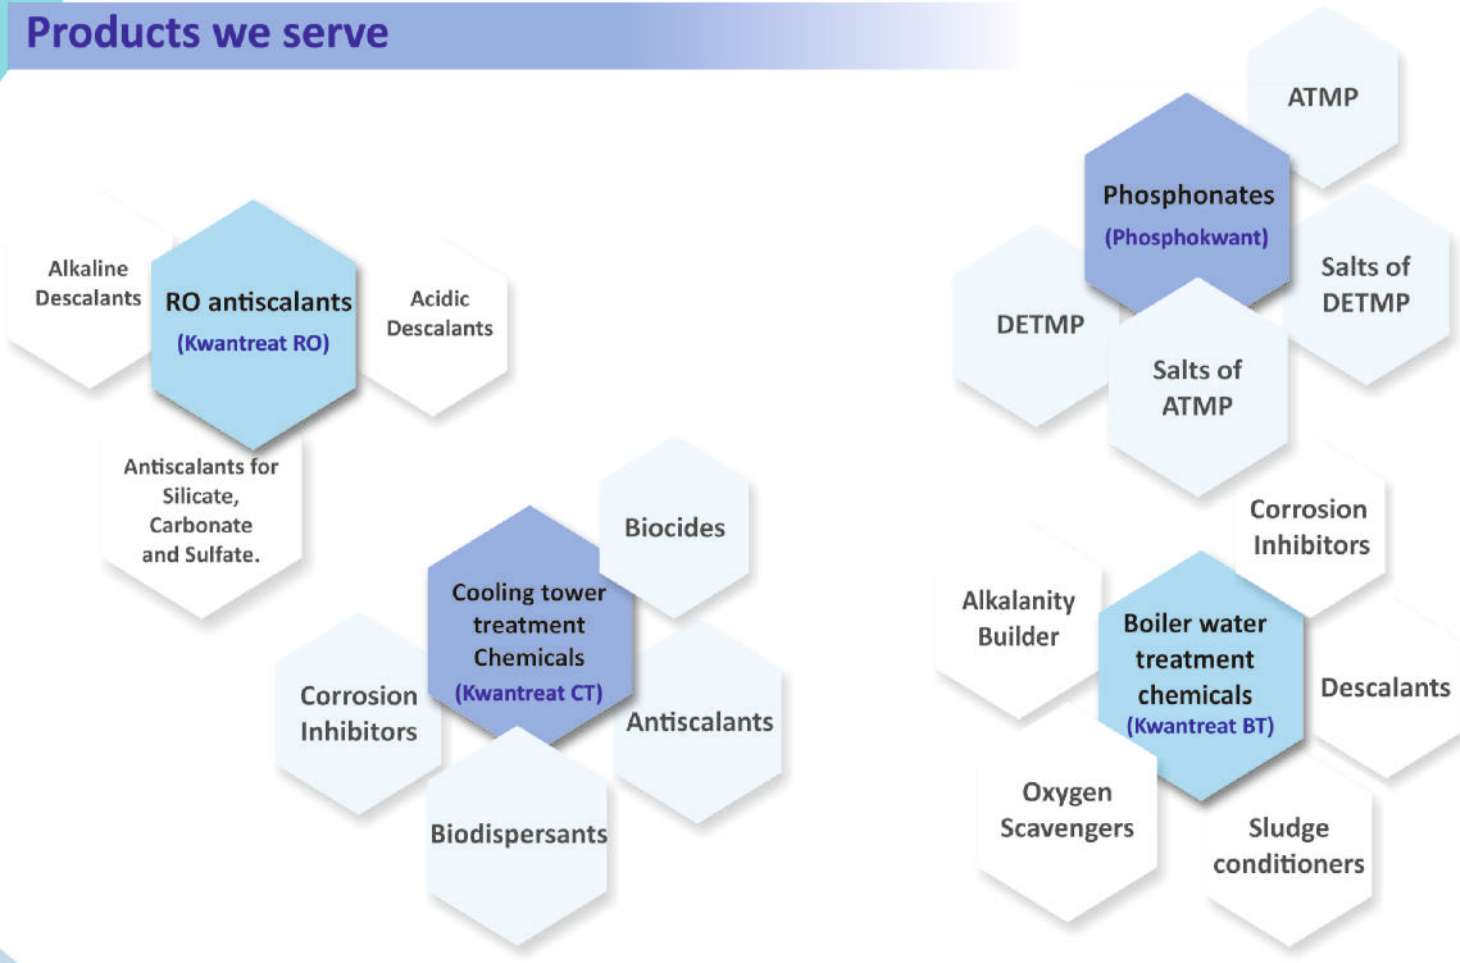
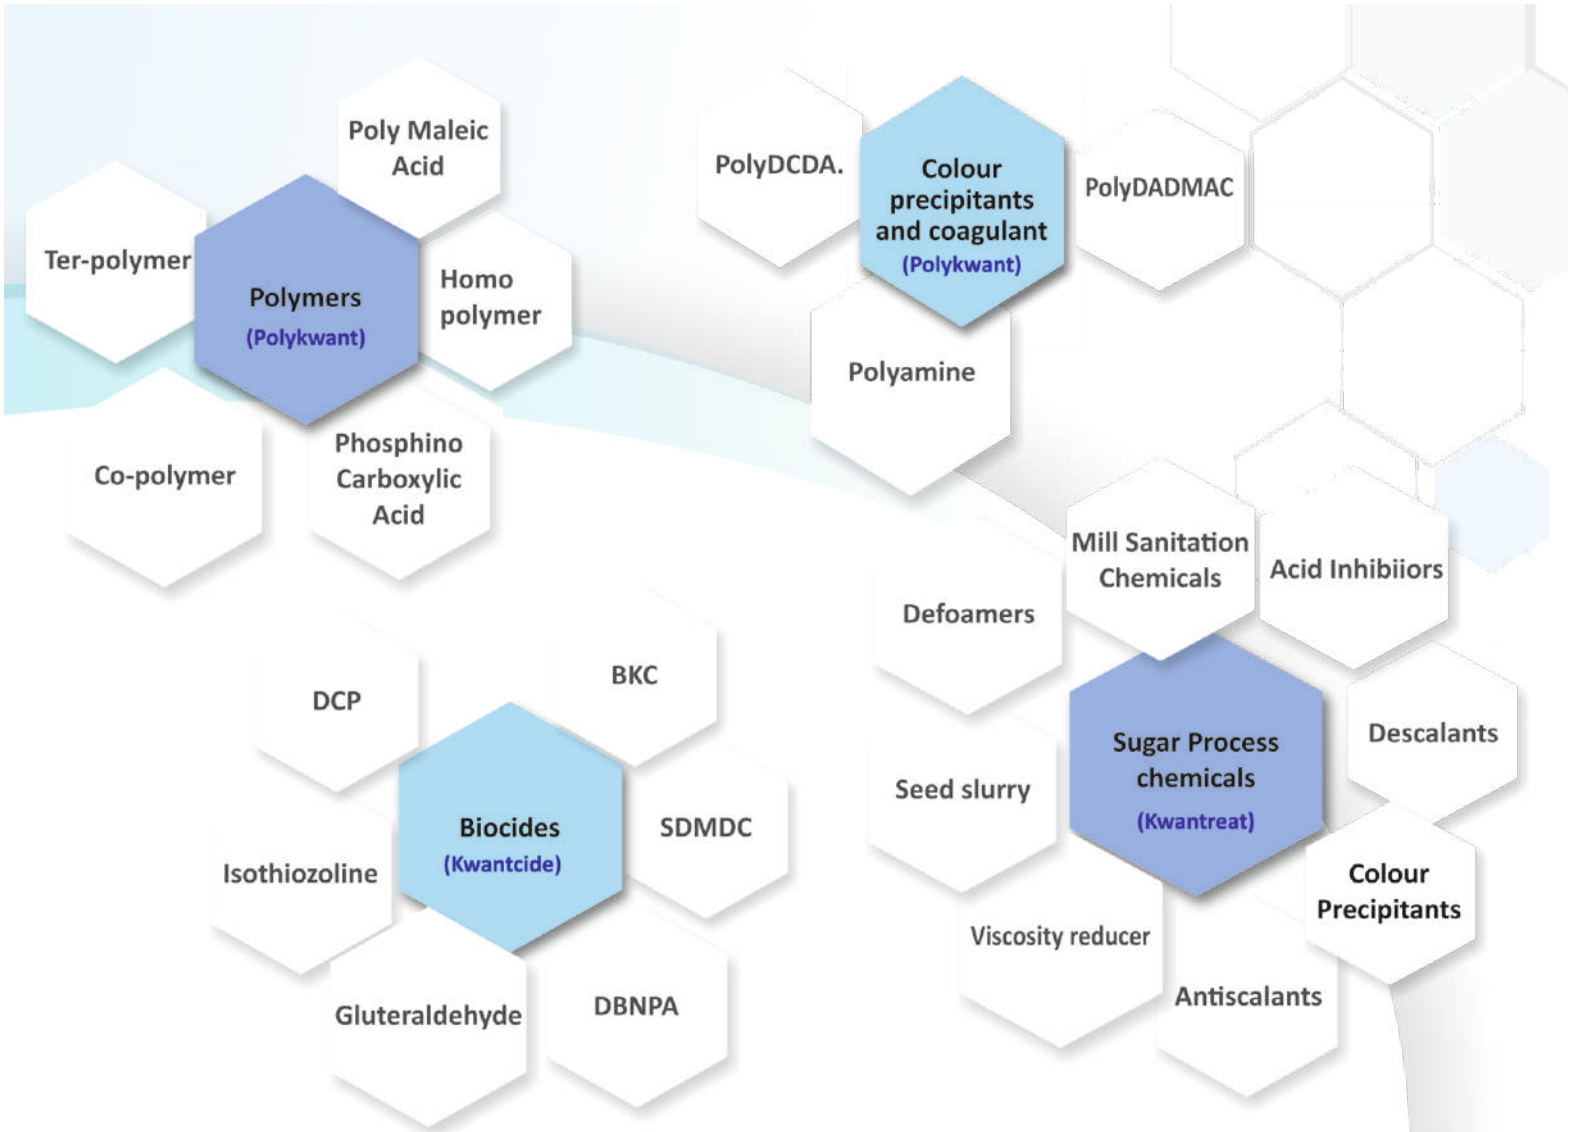
ABOUT US

At Kwantum Chemicals & Polymers Pvt. Ltd., we are driven by innovation, quality, and a deep commitment to the industries we serve. Founded with a vision to become a trusted name in specialty and industrial chemicals, we have emerged as one of India's leading manufacturers of Sugar process chemicals, Water treatment chemicals, specialty chemicals, Polymers, and Biocides. With state-of-the-art manufacturing facilities and a dedicated R&D team, Kwantum specializes in the production of high-performance products such as Polymaleic Acid , PolyDADMAC, Polyamines, and a wide range of Biocides including BKC (50% & 80%), SDMDC-40%, Glutaraldehyde, DBNPA, CIT-MIT, and more.

Our diverse product portfolio is tailored to meet the demanding requirements of industries such as Sugar, Water treatment, Paper, Textiles, and Oil & Gas. Quality, consistency, and customer satisfaction are at the heart of everything we do. Our strong emphasis on sustainable practices, regulatory compliance, and technical support has helped us to build long-standing partnerships in both domestic and international markets.

Products we serve





Polymers

Products	Industry	Applications
Poly Maleic Acid (Aqueous route) Polykwant 1150	**IWT/Oil Field**	Acts as a superior Scale Inhibitor for Calcium Carbonates & Calcium Sulphates under stress condition. High Calcium tolerance in industrial water treatment and Oil field.
Acrylic Homopolymer Polykwant 1748	**IWT/Oil Field/ Detergent**	Acts as broad spectrum scale inhibitor and dispersant in varius industries like industrial water treatment and detergent.
Acrylic Maleic Co-polymer Polykwant 1240	**Detergent and textile**	Acts as a anti-redposition and anti-back staining in detergent and textile respectively.
Acrylic AMPS Co-polymer Polykwant 1343	**IWT/Oil Field**	Broad Spectrum Scale inhibitor and Dispersant zinc and phosphate stabilizer for cooling water.
Acrylic AMPS Ter polymer Polykwant 1644	**IWT/Oil Field/Textile/ foundary**	Broad Spectrum Scale inhibitor and Dispersant under stress conditions. Effective even in presence of Iron.
Acrylic AMPS Ter-polymer Polykwant 1647	**IWT/Oil Field/Textile/ foundary**	Broad spectrum Scale Inhibitor & Dispersant. Recommended particularly for Silica & Magnesium Silicate Scales
Phosphino Carboxylic Acid Polykwant 2050	**IWT/Oil Field**	Very effective against Carbonate, Sulphate & Phosphate scales in highly stress conditions. Used in Cooling tower and Boiler water application.

IWT - industrial water treatment
